1. Large amounts of military equipment of all types have been transferred to Jicin. Trucks carrying uniforms, blankets, underwear, bolts and similar items were observed leaving the railroad station on 17, 18 and 19 October 1950. It is believed that the equipment is destined for mobilization stores.
2. The ammunition dump at Zamberk has been enlarged. According to soldiers employed at the dump, several freight cars of materiel consisting of explosives, ammunition and infantry weapons were delivered to the dump in the latter half of October 1950. This materiel was packed in cases. Several of the cases bore Russian markings but were not opened, and not even the officers in charge of the dump knew their contents. An unspecified number of Soviet sub-machine guns were delivered and uncrated. From the dump, this materiel was forwarded by truck to various garrisons in the area.
